

**Remote Online Notarization:
List of Approved Communication Technology Providers**

Under Wisconsin law,¹ providers of communication technologies used to perform remote notarial acts must meet certain standards to ensure that acts performed using their technologies are accurate, authentic, adequately preserved, and resistant to tampering. The Wisconsin Department of Financial Institutions and the Remote Notary Council have established procedures to approve providers of communication technology for use by Wisconsin notaries when performing remote online notarial acts.

The following communication technology providers are currently approved for use by Wisconsin notaries:

DocVerify (www.docverify.com)

Nexsys Technologies (www.nexsystech.com)

NotaryCam (www.notarycam.com)

Pavaso (www.pavaso.com)

To be added to this list, a communication technology provider must return a completed [application](#) to the Department of Financial Institutions; appear before the Remote Notary Council to answer questions about its technologies, safeguards, and capabilities; and satisfy the Council that its communication technologies meet the standards for providers under Wisconsin law.

¹ Wis. Stat. § 140.145.
